MGAS – Trayport Authorisation Procedure

❑ In order to obtain a Trayport access authorisation for a so-called «free» user on the Gas Market, the applying Participant must already have a customer identification code (firmID) issued by Trayport.

❑ To request Trayport access authorisations for additional so-called «Pass-through» users, the applying Participant must also have signed the related Pass-through Agreement with Trayport.

❑ To apply for authorisations of one or multiple users, the Participant must:
✓ complete the Trayport authorisation application

✓ submit the required documents as indicated at the following link: Trayport Global Vision Portal

Requirements to obtain users' authorisations for Trayport access

To access the MGAS through the Trayport interface, the user must

✓ be authorised to access the MGAS as designated user (point 4 of the market participation application)
    ✓ if you have not been designated, then click here to request the access authorisation

✓ be registered with the MGAS platform through his/her own digital certificate
    ✓ if you are not registered, then click here

If GME's verifications are successful, the user will receive in his/her e-mail the mapping required to access the MGAS through the Trayport interface.
