

Technical rule no. 15 Rev. 02 MPE

(under Article 4 of the Integrated Text of the Electricity Market Rules, approved by the Decree of the Minister for Productive Activities of December 19, 2003, as subsequently amended and supplemented)

Title	Non-performance of market coupling
--------------	---

Reference Legislation	Article 41, paragraph 41.4 and Article 54, paragraph 54.3, Integrated Text of the Electricity Market Rules
-----------------------	--

Published on 31 December 2024

1. Foreword

Articles 41, paragraph 41.4, and Article 54, paragraph 54.3 of the Integrated Text of the Electricity Market Rules (hereafter “ME Rules”) state that, in the event of a risk of non-performance of market coupling (decoupling), or if decoupling with one or all of the energy markets involved in market coupling is confirmed, GME shall inform Market Participants of that fact, as specified in the Technical Rules.

2. Notice in case of non-performance of market coupling

If there is a risk of decoupling or if decoupling is confirmed, GME will notify this situation to Market Participants by publication of a notice on SIME¹.

¹ SIME: “Sistema Informatico del Mercato Elettrico”, i.e. the system through which GME gathers demand bids and supply offers, defines market results, and makes preliminary information and results available.
