If the Market Participant is also a Participant in the MGAS and/or PCE, the same may confirm, for the ME too, the bank details already communicated for the MGAS and/or the PCE under the terms and conditions referred to in para. 2 above.

In this case, for the sole purpose of settlement of payments, GME shall determine, for each settlement period, the total amount due by the Market Participant with reference to the payables arising from transactions concluded by the same Market Participant in each of the markets/platforms in which it has operated.

If the payment of the total amount due is partially settled by the Market Participant via Urgent SEPA Credit Transfer or equivalent, GME - unless otherwise expressly communicated in writing by the Market Participant by 4:00 pm on the day of payment - shall allocate the collected amount previously collected to the cover of payables arising from the CCTs on the PCE and it shall allocate the possible surplus under the following criteria:

- a) to the MGP and MI or to the netting markets: a share equal to the ratio of the amount resulting from the debit balance of payables/receivables in the netting markets as referred to in Article 103, paragraph 103.2, a) of the ME Rules and the total amount of debt positions, deriving from the balance of payables/receivables in the netting markets, the MTE and the MPEG;
- b) to the MPEG: a share equal to the ratio of the amount resulting from the debit balance of payables/receivables in the MPEG, as referred to in Article 103, paragraph 103.2, b) of the ME Rules and the total amount of debt positions, deriving from the balance of payables/receivables in the netting markets, the MTE and the MPEG;
- c) to the MTE: a share equal to the ratio of the amount resulting from the debit balance of payables/receivables in the MTE, as referred to in Article 103, paragraph 103.2, c) of the

ME Rules and the total amount of debt positions, deriving from the balance of payables/receivables in the netting markets, the MTE and the MPEG;

d) to the MTGAS: a share equal to the ratio identified in the Technical Rule no. 16 MGAS.

4. Settlement of payments and invoicing of purchase and sale transactions concluded in the MGP, MI, or netting markets

4.1 Settlement period of payables/receivables in the MGP, MI or netting markets

The settlement period of payables/receivables related to all purchase and sale transactions concluded on the MGP and MI or netting markets, including purchases and sales assigned by GME under Article 90, para. 90.7, a), *iii* of the ME Rules, is the week (W+1), following the week (W) - which runs from Monday (T-6) to Sunday (T) - during which the power already traded has been delivered, for the MGP and MI.

Activities related to the settlement cycle will be postponed with respect to the standard settlement timeframes described in paragraphs 4.2 and 4.3 below as follows:

1. if the settlement week W+1 includes holidays (as per Technical Rule no. 01 ME) different from Saturdays and Sundays, the settlement cycle will be postponed to the next working day compared to the standard timeframe;
2. if the week in which the settlement of payments is planned includes the last day of the month, the settlement cycle will be postponed by one week compared to the standard timeframe;
3. if the settlement week W+1 includes the fifteenth working day of the month, the settlement cycle will take place within the timeframes provided in paragraph 5.5, except when the fifteenth working day is a Monday. In the latter circumstance, the debit balance will be settled by debtor Market Participants on the next working day.

For details about possible time shifts with respect to the standard settlement timeframes described in paragraphs 4.2 and 4.3 below, please refer to the settlement calendar published on GME's website (www.mercatoelettrico.org).

4.2 Timings for notifications referred to the net position regarding payables/receivables in the MGP, MI or netting markets

In accordance with Article 103, paras 103.2 and 103.3 of the ME Rules, in the week W+1, GME shall define and notify to each Market Participant its own net debt or credit position, resulting from the

purchase and sale transactions concluded on the MGP and MI or netting markets and delivered in week W, including purchases and sales assigned by GME under Article 90, para. 90.7, a), *iii* of the ME Rules.

If the settlement week W+1 includes the fifteenth working day of the month, GME shall define and notify to each Market Participant the overall net debt or credit position, which will also include the net debt or credit position defined in paragraph 5.4 below, if the Market Participant has also a balance in the markets with monthly settlement identified in paragraph 5 below. Where the application of the settlement timeframes specified in paragraph 4.3 and the exceptions provided in paragraph 4.1 result in a postponement to the first settlement period of the month following the settlement of payables/receivables referred to in para. 5.4, GME will not determine the overall net debt or credit position, including the markets with monthly settlement referred to in paragraph 5 below, but a separate net position for each balance to be settled.

The timings indicated above remain valid even with regard to PA Market Participants, as they comply with the provisions contained in Law no. 244 of 24 December 2007 and related implementing provisions.

4.3 Terms, conditions and time limits of settlement of payables/receivables resulting from the MGP, MI, or netting markets

4.3.1 Terms, conditions and time limits of settlement of payments by PA Market Participants that are net debtors

After completing the invoicing process described in the following para. 4.4.4, GME will satisfy its receivables from PA Market Participants qualifying as net debtors towards GME as a result of the determinations referred to in paragraph 4.2, using their non-interest bearing cash deposit, posted as a guarantee in accordance with Article 100 paragraphs 100.3, 100.5 and 100.6 of the ME Rules, as possibly allocated, as indicated in Technical Rule no. 4 ME and Technical Rule no. 19 MGAS, until it is exhausted.

4.3.2 Terms, conditions and time limits for settlement of payments in the MGP, MI, netting markets by non-PA Market Participants that are net debtors

Market Participants qualifying as net debtors of GME as a result of the determinations referred to in paragraph 4.2 above, except for Acquirente Unico (AU), shall pay the amount due as per Article 104, paragraph 104.1, a), of the ME Rules. They must transfer such amount from the bank account

(whose details have been priorly communicated to GME under the procedure indicated in paragraph 2) to GME's treasury institute on the second working day of the week W+1 by 12.30, with value date on the same day, via urgent SEPA Credit Transfer or equivalent.

Under Article 104 para. 104.2 of the ME Rules, net debtor Market Participants, that fail to pay within the above-mentioned time limit, must pay the amount due to GME's treasury institute from the bank account (whose details have been priorly communicated to GME under the procedure indicated in paragraph 2) by 4 p.m. of the fourth working day following the deadline of the communication referred to in paragraph 4.2 above, via urgent SEPA Credit Transfer or equivalent. Such amount must be increased by:

- i. default interest calculated by the application of the legal interest rate to the amount owed to the creditor for the days of late payment, and
- ii. a penalty, equal to one percent of the amount due.

If the Market Participant wishes to make the payment from a bank account different from the above-mentioned one, it must priorly send to GME, under the procedure referred to in para. 2 above, a communication indicating the details of the bank from which it wishes to make the payment.

In the event of partial payment by the debtor Market Participant of the overall net position arising in the MGP, MI or netting markets, in the MTE and in the MPEG, GME shall allocate the collected amount, unless otherwise expressly communicated in writing by the Market Participant within the time limits indicated above, applying the following criteria:

- a) to the MGP and MI or to the netting markets: a share equal to the ratio of the amount resulting from the debit balance of payables/receivables in the netting markets as referred to in Article 103, paragraph 103.2, a) of the ME Rules and the total amount of debt positions, deriving from the balance of payables/receivables in the netting markets, the MTE and the MPEG;
- b) to the MPEG: a share equal to the ratio of the amount resulting from the debit balance of payables/receivables in the MPEG, as referred to in Article 103, paragraph 103.2, b) of the ME Rules and the total amount of debt positions, deriving from the balance of payables/receivables in the netting markets, the MTE and the MPEG;
- c) to the MTE: a share equal to the ratio of the amount resulting from the debit balance of payables/receivables in the MTE, as referred to in Article 103, paragraph 103.2, c) of the ME Rules and the total amount of debt positions, deriving from the balance of payables/receivables in the netting markets, the MTE and the MPEG.

With reference to the uncollected share related to the netting markets, GME will apply the default procedure referred to in paragraph 4.3.4 below; with reference to the uncollected share related to the MPEG and MTE, GME shall apply the default procedure referred to in paragraph 5.5.4 below.

The data reported by the information system of the treasury institute will be considered reliable in order to identify the date and time when the payments are credited to GME's bank account.

4.3.3 Terms, condition and time limits of settlement of payments by AU in the MGP, MI or netting markets

If AU qualifies as net debtor of GME following the determinations referred to in paragraph 4.2 above, it must pay the amount due to GME's treasury institute, through the urgent SEPA Credit Transfer or equivalent, by 10:30 a.m. of the same day (and with value date on the same day) as the one in which GME makes payments to its net creditor Market Participants as referred to in paragraph 4.3.4 below.

4.3.4 Terms, conditions and time limits of settlement of payments in the MGP, MI or netting markets to Market Participants that are net creditors

GME will make payments to Market Participants that qualify as net creditors of GME as a result of the determinations referred to in paragraph 4.2 above.

On the second working day following the notifications referred to in paragraph 4.2 above and with value date on the same day, GME, in accordance with Article 107, paragraph 107.2 of the ME Rules, shall pay to its net creditors (as provided in paragraph 7 below) an amount equal to the ratio of the amount referred to in Article 104, paragraph 104.1 of the ME Rules, paid by net debtor Market Participants in netting markets, to the overall credits as per Article 103, paragraph 103.2, a) of the ME Rules that GME has accrued towards net debtor Market Participants in netting markets.

If GME does not receive the payment described in Article 104, paragraph 104.2 of the ME Rules from its net debtor Market Participants within the time limits defined in paragraphs 4.3.2 and 4.3.3 above, GME, in accordance with Article 107 paragraph 107.3 of the ME Rules, will pay to its net creditors (in accordance with the procedure set forth in paragraph 7 below and within the fifth working day following the notifications referred to in paragraph 4.2 above) an amount equal to the ratio of the amount mentioned in Article 104, para. 104.2 of the ME Rules, paid by net debtor Market Participants in netting markets, to the overall credits as per Article 103, para. 103.2, a) of the ME Rules that GME has accrued towards the same net debtor Participants in netting markets. GME shall also settle default interest, calculated by applying the legal interest rate to the amount owed to its creditor, and

the penalty, upon receiving the related invoice under the procedure and within the time limits laid down in paragraph 6.7 below.

If GME does not receive the payment from the net debtors referred to in Article 104, para. 104.2 of the ME Rule within the time limits defined in paragraphs 4.3.2 and 4.33 above, then it – under Article 110, para. 110.1, b) of the ME Rules - will enforce the guarantees referred to in Article 100, paras. 100.1 and 100.3 of the ME Rules, within the following working day, and it will pay pro-quota the residual net debts, on the basis of the amount collected upon enforcement, within 5 working days of the date of collection.

Where the amount collected from enforcement of the guarantees is not sufficient to cover the defaulting Market Participant's debt, GME will pay its net creditors (under the procedures and within the time limits defined in the Technical Rules) using the resources accumulated in the Guarantee Fund established within CSEA. If the defaulting Market Participant's net debt exceeds the resources available in the aforementioned Fund, GME will use its own funds up to the maximum amount (i.e. yearly maximum amount) quantified in accordance with Article 110, para. 110.2 of the ME Rules. Within the limits of both the resources available in the Guarantee Fund and the above-mentioned yearly maximum amount, GME shall also pay default interest, calculated applying the legal interest rate to the amount owed to its creditor for the days of delayed payment, and the penalty, upon receipt of the related invoice and in accordance with the procedure and within the time limits of paragraph 6.7 below. The credits exceeding the resources available in the Guarantee Fund and the yearly maximum amount will be paid by using the risk pooling mechanism under in Article 10, paragraph 10.3 of the Decree of the Minister of Economic Development of 29 April 2009, after collecting the amounts arising from the application of the aforesaid mechanism.

Any amounts that GME may recover through judicial proceedings under Article 110, para. 110.4 of the ME Rules will be used in the first place to restore the corresponding portion of what has been paid through the risk pooling mechanism.

The remaining portion, if any, of the amounts so recovered will be used to restore, in the following order:

- a) GME 's own funds and, only in case the recovery takes place within 31 December of the calendar year in which the request for enforcement has been submitted, the yearly maximum amount to the extent of the amounts actually recovered. If the recovery is takes place after 31 December of the calendar year in which the enforcement request has been sent, any amount recovered will not be added to the maximum amount for the following year;

- b) the resources available in the Guarantee Fund.

The date and the time of the crediting of the above payments to GME 's bank account will be those recorded by the information system of the treasury Institute.

7 Common provisions

7.1 Payments

All payments referred to in paragraphs 4.3.4 and 5.5.4 above are made by GME in favour of net creditor Market Participants, through SEPA Credit Transfer with Priority or equivalent, to the banks whose details have been priorly communicated to GME under paragraph 2 above.

If the Market Participant is also admitted to the MGAS and/or the PCE and has also confirmed for the ME (under the procedure referred to in paragraph 2 above) the bank details already communicated for the MGAS and/or PCE, then GME, for the sole purpose of settlement of payments, will determine, for each settlement period, the total amount in favour of the Market Participant for the payables/receivables arising from the transactions concluded by the Market Participant in/on each of the markets/platforms in/on which it has operated.

The payments referred to in paragraph 6.6, from Market Participants to GME, will be made through SEPA Credit Transfer with Priority or equivalent from the bank account whose details have been priorly communicated to GME according to the procedure described in paragraph 2 above.

If the time limit for the payments set out in paragraphs 4.3, 5.5, 6.6, and 6.7 above falls on a non-working day, both GME's payments to Market Participants and Market Participants' payments to GME will be made within the next first working day.

The date and the time of the crediting of the above payments to GME 's account will be those recorded by the information system of the treasury institute.

The IBAN code to which Market Participant must make the payments is available on GME's website (www.mercatoelettrico.org).

7.2 Format of notifications and invoices and ways of transmission

Pro-forma invoice notifications shall be provided to market participants on the "SetService" platform under the procedures described in the specific "SetService User Manual" posted on GME's website.

GME's invoices will be available on the "SetService" platform and they shall be transmitted to Market Participants through the SDI only if the legislation in force from time to time on electronic invoicing and the related implementing provisions so requires.

After downloading their pro-forma invoice notifications from the "SetService" platform, Market Participants will make their own invoice available on the "SetService" platform, including in it only the necessary details, as described in the SetService User Manual.

Upon occurrence of the conditions established by the legislation in force from time to time on electronic invoicing and related implementing provisions, after downloading their pro-forma invoice notifications from the "SetService" platform, Market Participants will transmit the invoice to GME through the SDI, including in it only the necessary details, as described in the SetService User Manual.

GME's invoices for the access fee and for the penalties and interests referred to in the previous paragraphs, will be sent to Market Participants by e-mail or post, without prejudice to the legislation in force from time to time on electronic invoicing and related implementing provisions.
