- 46.5 Where the verifications mentioned in para. 46.4 above have a positive outcome, GME shall proceed in compliance with para. 46.6 below. In case of negative outcome, GME shall reject the request explaining the reasons for the rejection.

- 46.6 Under the modalities and within the time limits established in the Technical Rules, GME shall provide the counterparty Market Participants concerned with the details of the transactions for which the activation of the error management procedure has been requested, asking them their consent to activating the same procedure.
- 46.7 Where the counterparty Market Participants concerned have given their consent to activating the error management procedure under the modalities and within the time limits established in the Technical Rules, GME shall cancel the transactions, notifying the Market Participants concerned thereof under the modalities and within the time limits established in the Technical Rules. In case of dissent, GME shall not cancel the transactions, notifying the Market Participants concerned thereof.

If the emergency condition is due to:
- planned impossibility to register at the PSV, then GME shall - where possible - register the net position of Market Participants ahead of the time limits defined in Articles 31 and 37 above;
 - unplanned impossibility to register at the PSV, then GME shall close the net positions of Market Participants in respect of the gas-days for which no registrations may be made at the PSV, where GME itself is unable - owing to the aforesaid unavailability - to register the net position of Market Participants ahead of the time limits defined in Articles 31 and 37 above.

Article 55
Financial Guarantees of Market Participants

- 55.1 For the purpose of submitting adequate bids/offers into the MGAS, Market Participants shall post financial guarantees in the form of first-demand bank guarantees in the format of *Annex C (Modello di Fideiussione)* hereto. The guarantees shall be issued by banks which are members of the professional association referred to in Article 13 of Legislative Decree no. 385 of 1 September 1993 and which have a long-term rating attributed by at least one of the following companies: Standard & Poor's Rating Services, Moody's Investor Service and Fitch. The rating shall not be lower than BBB- on Standard & Poor's or Fitch's scale or Baa3 on the scale of Moody's Investor Service.
- 55.2 As an alternative to or together with the bank guarantees posted as per para. 55.1 above, Market Participants may post guarantees in the form of a non-interest bearing cash deposit, to be made into the account held by GME with the bank in charge of its treasury services.
- 55.3 In the case of a bank guarantee, if the issuing bank is subject to control as per art. 2359, paras. 1 and 2, of the Italian Civil Code and does not meet the requirements set forth in para. 55.1 above, then the guarantee issued by such bank shall be supported by a statement issued by its controlling company. In such statement, the controlling company, which shall meet the requirements specified in para. 55.1 above, shall undertake the following obligations:
- a) if a change takes place in the structure of the company and such change is such as to involve the loss of control as per art. 2359, paras. 1 and 2, of the Italian Civil Code, then the company shall timely notify GME thereof;
 - b) if, when receiving a request for redeeming the bank guarantee, the issuing bank defaults on its obligations or is in the position referred to in subpara. a) above, then the company shall guarantee the fulfilment of the obligation undertaken by its controlled company.

- 55.4 If the issuing bank or the controlling company that has issued the statement mentioned in para. 55.3 above no longer meets one or both of the requirements specified in para. 55.1 above, or if the controlling company loses the control of the issuing bank as per art. 2359, paras. 1 and 2, of the Italian Civil Code, then the bank guarantees issued by such bank shall remain valid until the end of the time period specified in the Technical Rules.
- 55.5 The bank guarantee and the statement mentioned in para. 55.3 above shall be submitted to the bank in charge of GME's treasury services referred to in Article 54 above.
- 55.6 By the end of the working day following the one on which the bank guarantee and the statement mentioned in para. 55.3 above have been submitted, the bank in charge of GME's treasury services shall verify whether: i) the guarantee is complete and conforms to the format attached hereto (*Annex C*); ii) it has been issued by a bank meeting the requirements specified in para. 55.1 above; and iii) the statement issued by the controlling company has the content referred to in para. 55.3 a) and b) above.
- 55.7 Within the time limit specified in para. 55.6 above, the bank in charge of GME's treasury services shall notify the Market Participant and GME of any deficiencies identified upon the verification of the submitted bank guarantee or of the statement mentioned in para. 55.3 above.
- 55.8 If the verification has a positive outcome, the bank in charge of GME's treasury services shall notify GME, within the time limit specified in para. 55.6 above, of the amount covered by the bank guarantee and of the start of the period of validity of the guarantee and of the statement mentioned in para. 55.3 above.
- 55.9 The Market Participant may dispute the results of the verification carried out by the bank in charge of GME's treasury services by filing an appeal with the Court of Arbitration mentioned in Article 80 below.
- 55.10 The amount covered by the bank guarantee and by the statement referred to in para. 55.3 above shall be valid and effective only as of the second working day following the day on which GME receives the notification referred to in para. 55.8 above.
- 55.12 The amount guaranteed by the non-interest-bearing cash deposit shall be valid and effective only as of the second working day following the one on which such deposit has been credited to GME's account with the bank in charge of its treasury services. The deposit shall be deemed to have been credited to GME's bank account on the date and at the time recorded by the information system of the bank in charge of GME's treasury services.

Article 56
Amount of the Guarantee

- 56.1 The amount of the guarantee (whether a bank guarantee or a non-interest-bearing cash deposit) to be taken into consideration for the adequacy verification - as per Articles 29, 35 and 42 above and Article 57 below - shall be determined by the Market Participant on the basis of the bids/offers that he/she/it intends to submit into the MGAS.
- 56.2 The Market Participant that has posted bank guarantees may at any time change the guaranteed amount, by submitting an updating letter in the format of *Annex D (Modello di Lettera di Aggiornamento della Fideiussione)* hereto or a new bank guarantee to the bank in charge of GME's treasury services.
- 56.3 By the end of the working day following the one of submission of the letter updating the bank guarantee, the bank in charge of GME's treasury services shall verify whether the letter conforms to the specified format (*Annex D*).
- 56.4 Within the time limit specified in para. 56.3 above, the bank in charge of GME's treasury services shall notify the Market Participant and GME of any deficiencies identified upon the verification of the submitted updating letter.
- 56.5 If the verification has a positive outcome, the bank in charge of GME's treasury services shall notify GME, within the time limit referred to in para. 56.3 above, of the new guaranteed amount and of the date from which the new value shall apply.
- 56.6 The new bank guarantee and the update letter shall be verified according to the provisions contained in Article 55 above.
- 56.7 Except as provided in para. 56.8 below, the modification of the amount of the bank guarantee shall have effect from the later of the following dates:
- a) the second working day following the one on which GME receives the notification referred to in para. 56.5 above;
 - b) the date indicated in the notification referred to in para. 56.5 above.
- 56.8 If the request for modification referred to in para. 56.2 above concerns a decrease of the amount of the bank guarantee, the acceptance of such request shall be subject to verification by GME. GME shall verify whether the requesting Market Participant is in debit towards GME. If the Market Participant is not in debit, GME shall notify the Market Participant of the immediate validity of the requested modification for the purposes of the adequacy verifications.
- 56.9 The Market Participant may at any time request the modification (increase or decrease) of the amount of the guarantee posted in the form of a non-interest-bearing cash deposit. The Market Participant may ask for refund (even partial) of the deposited amount provided that, by doing so, the Market Participant's position is entirely guaranteed. If the Market Participant requests an increase of the amount of the guarantee, he/she/it shall deposit the related amount into the account held by GME with the bank in charge of its treasury services. After verifying whether the Market Participant's deposit has been credited to its bank account, GME shall modify the guaranteed amount with validity and effect from

the second working day following the one on which such deposit has been credited. The amount so credited shall be deemed to have been received on the date and at the time recorded by the information system of the bank in charge of GME's treasury services.

Article 57
Available Amount of the Guarantee
for the Purposes of the Adequacy Verification in the MGAS

- 57.1 GME shall determine and update the available amount of the guarantee under the procedures and within the time limits defined in the Technical Rules.
- 57.2 Where the available amount of the guarantee, updated under the modalities indicated in the Technical Rules, is not sufficient, the Market Participant shall increase it under the procedures and within the time limits defined in the Technical rules. Pending the increase of the guaranteed amount, GME may limit the activity of the Market Participant to transactions that do not increase his/her/its exposure towards GME.
- 57.3 Where the Market Participant does not increase the guaranteed amount in accordance with para. 57.2 above, GME shall apply the default procedure referred to in Section III below.
- 57.4 After the submission of bids/offers into the MGAS and upon registration of the net delivery position at the PSV as per Articles 31 and 37 above, GME shall verify whether the available amounts of the related guarantees are sufficient under the modalities established in the Technical Rules.
- 57.5 The determination and the updating of the available amount of the guarantee, as well as the adequacy verifications shall be carried out under the procedures specified in the Technical Rules and the following principles:
- a) with a view to creating an adequate maintenance margin, the guaranteed amount of Market Participants is decreased by an amount whose value is specified in the Technical Rules;
 - b) bids/offers submitted into the MGAS are adequate if the related guarantees cover the payables/receivables arising therefrom;
 - c) the registration of the net delivery buy position at the PSV is adequate if the related guarantee totally covers its value;
 - d) if the net delivery position cannot be registered at the PSV under Article 31, para. 31.5 and Article 37, para. 37.5, GME may decrease the available amount of the guarantee.

- 57.6 For the purposes of the adequacy verifications in the MGAS, GME may define:
- a) a check price for each contract traded in the MGAS; this price is set daily on the basis of bids/offers submitted into and/or concluded in the MGAS; GME may determine the check price also on the basis of other indicators or procedures involving Market Participants;
 - b) a parameter α , which is determined on the basis of the volatility of the prices of the listed contracts;
 - c) a parameter β , which is determined on the basis of the price correlation between different delivery periods.
- 57.7 The values of parameters α and β shall be defined in the Technical Rules.
- 57.8 The amounts referred to in the above paragraphs, to be taken into consideration for the adequacy verification, shall not include the fees specified in Article 7, para. 7.1 above and the contribution specified in Article 8, para. 8.1 above.

SECTION II SETTLEMENT OF PAYMENTS

Article 58 Offsetting of Payments

- 58.1 For each invoicing period and each Market Participant, GME shall - under the procedures and within the time limits established in the Technical Rules - determine two distinct net positions of debit and/or credit towards GME pertaining to:
- a) the balance of payables and receivables resulting from purchase and sale transactions carried out in the MGAS,
 - b) the balance of payables and receivables resulting from transactions referred to in Article 66, para. 66.1 b) below, respectively.
- 58.2 GME shall communicate to each Market Participant, according to the formalities and within the time periods specified in the Technical Rules, the results of the determinations referred to in para. 58.1 above, based on which payments shall be made according to the provisions and within the time periods specified in Articles 59 and 61 below.

Article 59 Payments from Market Participants to GME

- 59.1 Market Participants qualifying as debtors towards GME as a result of the determinations referred to in Article 58 above shall pay the amounts due for each net position (determined and notified by GME under Article 58, para. 58.2 above) to the bank in charge of GME's treasury services, under the procedures and within the time limits specified in the Technical Rules.
- 59.2 If the bank in charge of GME's treasury services does not receive the payment of the amount due in accordance with para. 59.1 above, Market Participants

qualifying as debtors towards GME may pay the amount due to the bank in charge of GME's treasury services, after adding to such amount the default interest as well as a penalty (to be determined under the criteria and to the extent indicated in Article 67 below) according to the provisions and within the time periods specified in the Technical Rules.

- 59.3 If the bank in charge of GME's treasury services does not receive the payment of the amount due in accordance with para. 59.2 above, GME shall apply the default procedure referred to in Section III below.

Article 60 **Payments of Fees**

- 60.1 The amounts specified in Article 51, para. 51.1 c) and Article 53 above shall be paid in accordance with the procedures and within the time limits specified in the Technical Rules.

Article 61 **Payments from GME to Market Participants**

- 61.1 Payments to Market Participants qualifying as creditors towards GME as a result of the determinations referred to in Article 58 above shall be made, for each net position, according to the provisions of this Article.
- 61.2 After receiving the payments referred to in Article 59, para. 59.1 above, GME shall make payments to Market Participants qualifying as creditors towards GME after the determinations referred to in Article 58 above, in accordance with the modalities and within the time limits established in the Technical Rules. Such payments shall be made on a *pro quota* basis - as established in the Technical rules - if one or more Market Participants have not paid the entire amount due or part of the amount due under Article 59, para. 59.1 above to the bank in charge of GME's treasury services.
- 61.3 After receiving the payments referred to in Article 59, para. 59.2 above, GME shall make *pro quota* payments to Market Participants qualifying as creditors towards GME after the determinations referred to in Article 58 above, in accordance with the modalities and within the time limits established in the Technical Rules.
- 61.4 After receiving the payments referred to in Article 59, para. 59.3 above, GME shall make *pro quota* payments to Market Participants qualifying as creditors towards GME after the determinations referred to in Article 58 above, in accordance with the modalities and within the time limits established in the Technical Rules.
- 61.5 If GME, by its own fault, makes the payments beyond the time limits mentioned in this Article, it shall pay default interest to Market Participants at the rate posted on GME's website.

- 61.6 GME shall reserve the right to block payments to creditor Market Participants when the circumstances identified in the Technical Rules arise and under the procedures and within the time limits established therein.

SECTION III DEFAULT

Article 62 Cases of Default by the Market Participant

- 62.1 A Participant of the MGAS shall be in default,
- a) if he/she/it has not made the payments to GME in accordance with Article 59, para. 59.2 above;
 - b) if, at the end of the trading period and after the adequacy verifications carried out pursuant to Article 31, para. 31.5 and Article 37, para. 37.5 above, he/she/it cannot register the net delivery position at the PSV;
 - c) if he/she/it does not increase the amount of the guarantee pursuant to Article 57 above.

Article 63 Management of Default

- 63.1 In the cases of default referred to in Article 62, para 62.1 a) and c) above, GME shall:
- a) suspend the Market Participant from the MGAS;
 - b) redeem the guarantees posted under Section I of this Title;
 - c) close the net delivery positions under Article 66 below.
- 63.2 If the guarantees redeemed under para. 63.1 b) above are insufficient to cover the debit of the defaulting Market Participant or if the bank issuing the guarantee defaults on its obligations under Article 65 below, GME shall contribute to covering the debits of the defaulting Participants or of the bank issuing the guarantee, by using (in the following order):
- a) in accordance with the procedures and within the time limits established in the Technical Rules, the resources accumulated through the payment of the contribution mentioned in Article 8 above by Market Participants, as well as through the payments made by GME under para. 63.5 c) below;
 - b) its own funds for a maximum amount determined each year and allocated for this purpose; this amount, posted on GME's website, shall be set by the Ministry of Economic Development at the proposal of GME.
- 63.3 If the resources used by GME under para. 63.2 above are not sufficient to cover the debits of the defaulting Market Participants or of the bank issuing the guarantee, GME shall - for the uncovered part - resort to the risk pooling mechanism defined by AEEG. It shall be understood that, in this case, GME shall make payments to Market Participants for the uncovered portion of the credit under Article 61, para. 61.4 above only after receiving the amounts resulting from the application of the aforesaid risk pooling mechanism. As a consequence, creditor Market Participants shall have no right or claim towards GME for the portion of credit not yet covered.

- 63.4 GME shall institute any ordinary judicial proceedings as needed to recover the amounts due by the defaulting Market Participant or issuing bank. The possibly recovered amounts shall restore the amounts used by GME to cover debits according to the following order:
- a) the amounts used under the risk pooling mechanism mentioned in para. 63.3 above;
 - b) the own funds mentioned in para. 63.2 b) above;
 - c) the resources accumulated by GME as per para. 63.2 a) above.
- 63.5 In the cases of default referred to in Article 62, para. 62.1 b) above, GME may:
- a) decrease the available amount of the guarantee under Article 57, para. 57.5 d) above;
 - b) under Article 66 below, assign to the Market Participant a transaction of opposite sign for a volume equal to the one of the net delivery position not registered at the PSV;
 - c) under the procedures and within the time limits established in the Technical Rules, apply a penalty for each MWh underlying the net delivery position not registered at the PSV; the value of the penalty shall be equal to 2 Euro/MWh. In compliance with AEEG's decisions, GME shall allocate the amounts resulting from the application of the penalty to the resources usable under para. 63.2 a) above.

Article 64 ***Suspension of the Market Participant***

- 64.1 GME shall revoke the suspension of the Market Participant pursuant to Article 63, para. 63.1 a) above, if the same Market Participant has paid to GME the amounts due or if GME has recovered the amounts referred to in para. 63.4 above and the Market Participant has submitted additional valid and effective guarantees, except as provided in para. 64.2 below.
- 64.2 Six months after the suspension, GME shall exclude the Participant from the market.

Article 65 ***Default by the Bank Issuing the Guarantee***

- 65.1 If the guarantee has been posted in the form of a bank guarantee and if, after receiving a request for redemption of the bank guarantee, the issuing bank fails to make the consequent payment within the time limit indicated therein, the other bank guarantees issued by the same bank shall remain valid until the time limit established in the Technical Rules.
- 65.2 If, after receiving a request for redemption of the bank guarantee, the issuing bank fails to make the consequent payment within the time limit indicated therein, GME shall not accept any new bank guarantees issued by the same bank for the purposes of Article 55 above. If the issuing bank fulfils its guaranteed obligation after the time limit indicated in the bank guarantee, GME may decide not to accept the new bank guarantees issued by the same bank for the purposes of Article 55 above up to a maximum period of twelve months from the date of the late fulfilment.

Article 66
Closing of the Market Participant's Positions

- 66.1 In the cases of default pursuant to Article 62 above, GME shall - under the modalities and within the time limits established in the Technical Rules - determine the net delivery positions of the Market Participant (obtained as the algebraic sum of the transactions that he/she/it has concluded in the MGAS) and:
- a) close the net delivery positions, i.e. close the defaulting Market Participant's contractual positions by carrying out transactions of opposite sign in the MGAS and assigning them to the same Market Participant;
 - b) if the procedure mentioned in subpara. a) above does not permit to close all of the Market Participant's net delivery positions, settle the defaulting Market Participant's remaining net delivery position in the balancing system; in this case, GME shall assign to the Market Participant a transaction of opposite sign, for a volume equal to the one of the net delivery position not registered at the PSV, and having a price equal to the price that is applied in the balancing system - on the same gas-day as the one to which the net position refers - to the imbalances having the same sign as the non-registered position.

Article 67
Default Interest and Penalties

- 67.1 In case of redemption of the guarantees, the amount owed by the Market Participant in debit shall be increased by a penalty, by default interest as specified in para. 67.2 below, as well as by the related redemption fees, if the guarantee has been posted in the form of a bank guarantee.
- 67.2 The default interest shall be determined by applying:
- a) for late payments in respect of the net position referred to in Article 58, para. 58.1 a) above, the legal interest rate to the amount owed by the Market Participant;
 - b) for late payments in respect of the net delivery position referred to in Article 58, para. 58.1 b), the default interest specified in the Technical Rules at a rate conforming to the provisions of the network code.

- 1.2 The Preamble shall be an integral and essential part hereof.

Article 2

At any rate, the withdrawal shall have effect only after the Contracting Party has carried out transactions of opposite sign in order to close his/her contractual positions existing in the Forward Gas Market upon submission of the notice of withdrawal and, anyway, only after the Contracting Party has met his/her obligations in connection with his/her participation in the Market. In particular, the Contracting Party shall notify GME with the maximum speed and according to the procedures specified in Article 9, paras. 9.6 and 9.7 below, of the occurrence of any event potentially dangerous for the integrity and security of the System (including but not limited to the theft of confidential documents regarding access to the System or unauthorised access to the Contracting Party's premises where such documents are kept);

- 3.9 GME shall hold the Contracting Party harmless against any damage or cost as the Contracting Party may incur also as a result of actions of third parties, caused by the actions or conduct of GME or of its personnel members, assistants or consultants in the management and supply of the Services, which are in violation of this Agreement, the Rules or Technical Rules, as well as of any other legislative provision or regulation applicable hereto.

The Parties agree that there shall be no obligation of compensation for damages that are an indirect or unpredictable consequence of the conduct of GME, including but not limited to damages resulting from the loss of business opportunities, customers or profits.
- 6.2 The Contracting Party shall notify GME - under penalty of lapse - of any claim for damages relating to the supply of the Services within and not later than fifteen working days from the day on which the Contracting Party has come to know or should have known, using proper diligence, of the occurrence of the damaging event, providing at the same time a detailed report of the circumstances of the damaging event and of the damages so produced. The relative documents in support of the claim shall be transmitted to GME within and not later than twenty working days from the day on which the Contracting Party has come to know or should have known, using proper diligence, of the occurrence of the damaging event.
- 6.3 GME and the Contracting Party shall not be liable for default due to force majeure, fortuitous cases, or events beyond their control, including but not limited to wars, uprisings, earthquakes, floods, fires, strikes, interruptions in electricity supply or in the operation of the dedicated data transmission lines which are part of the System, when such interruptions are exclusively the fault of third parties.
- 6.4 GME shall not be liable for damages incurred by the Contracting Party and/or third parties resulting from any unavailabilities, for whatever reason, of the PSV system organised and managed by Snam.
- 6.5 GME may, in cases of force majeure or fortuitous events and, in general, in all cases where the activities of the Contracting Party may damage the integrity or security of the System, suspend access to the System without the necessity of prior notification of the circumstances giving rise to the suspension.

The Bank ..., branch of ..., with registered office in ..., taxpayer's code ..., VAT number ..., listed at no. ... of the Register of Companies (*Registro delle Imprese*) and at no. ... of the Register of Banks (*Albo delle Banche*), capital stock Euro ..., represented by its legal representatives ... (hereafter the "Bank"),

WHEREAS

- ... (surname and name/company name or registered name), ... (date and place of birth), ... (place of residence and, if different, domicile/registered office)
taxpayer's code....., VAT number ...
capital stock Euro ..., of which ... (subscribed), of which ... (paid-up), registered with (hereafter "Market Participant" or "Applicant"), is a Gas Market Participant included in the Register of Market Participants pursuant to Article 17 of the Natural-Gas Market Rules (hereafter the "Rules"), approved under art. 30, para. 1 of Law 99/09 by the Minister of Economic Development with his Decree of 6 March 2013, as subsequently amended and supplemented, and fully superseding - under the Decree of 9 August 2013 - the provisions of the Gas Market Rules, approved under art. 30, para. 2 of Law 99/09 by the Ministry of Economic Development after hearing the opinion of *Autorità per l'energia elettrica e il gas* (AEEG – the electricity & gas regulator) on 26 November 2010, as subsequently amended and supplemented; by signing the Market Participation Agreement on.....,(date), the Market Participant has acquired all the financial obligations towards *Gestore dei Mercati Energetici S.p.A.* (hereafter "GME") arising in the Spot Gas Market and in the Forward Gas Market (hereafter jointly defined as the "Gas Market");
- as per Article 55, para. 55.1 of the Rules, for the purpose of submitting adequate bids/offers into the Gas Market, Market Participants may post a bank guarantee issued by banks meeting the requirements specified in the same Article 55, para. 55.1;
- the above-mentioned bank guarantee shall be submitted to the bank in charge of GME's treasury services (as set forth in Article 54 of the Rules), which shall verify the bank guarantee;
- the Market Participant has submitted a formal request for the above-mentioned bank guarantee for a maximum amount of Euro ... to cover all prior and future obligations towards GME in connection with his/her/its participation in the Market, in whatever form (including accessory obligations), except those arising from failure to pay the fees and the contribution referred to in Article 7, para. 7.1 and Article 8 of the Rules, respectively (hereafter "prior and future obligations");
- "prior obligations" shall mean all those obligations - even if they are not yet liquid and/or payable - that have already been acquired at the time of effect of this bank guarantee; "future obligations" shall mean all those obligations acquired after such time.

NOW, THEREFORE,

the Bank issues this guarantee in favour of GME on the terms and conditions indicated below and, anyway, in accordance with the Rules.

Article 1
(Validity and effect of the bank guarantee)

The bank guarantee shall be valid and effective from ... and not subject to any condition, unless the verification conducted by the bank in charge of GME's treasury services under Article 55, para. 55.6 of the Rules has had a negative outcome.

Article 2
(Waiver of preventative redemption)

The Bank shall - irrevocably and formally waiving the benefit of preventative redemption as specified in article 1944 of the Italian Civil Code - guarantee the fulfilment of all of the Market Participant's "prior obligations" and "future obligations" towards GME arising from participation in the Gas Market.

Article 3
(No assessment of the Market Participant's credit worthiness)

The Bank acknowledges and declares that, as the obligations mentioned in Article 2 above arise from participation in the Gas Market, they do not involve GME's prior assessment of the Market Participant's credit worthiness, without prejudice to the fact that this letter also represents a special authorisation granted by the Bank to GME for the purposes and effects of article 1956 of the Italian Civil Code.

Article 4
(Substitution in the bank guarantees over time)

If GME is guaranteed by other guarantees that the Market Participant has previously posted in favour of GME to cover obligations acquired in the Gas Market, this bank guarantee may substitute the previous guarantees, provided that: i) it is posted for an amount at least equal to the amount of the "prior obligations"; and ii) the Market Participant submits an appropriate application to GME and to the bank in charge of its treasury services upon the submission of this bank guarantee. The substitution shall thus relieve the previous issuing bank of its obligations.

Otherwise, this bank guarantee shall not impair the validity and effect of the previous guarantees. In this case, the prior guarantees and this bank guarantee issued to GME shall merely cumulate, without relieving the guarantors of their obligations, without prejudice to the fact that GME may preventatively redeem the prior guarantees. Moreover, this bank guarantee shall cover the "prior obligations" and the "future obligations" even in case of guarantees preceding this bank guarantee.

Article 5
(Extension of the Bank's liability)

Without prejudice to the provisions of Article 1 above, where the Bank loses one of the qualifications required by the applicable legislation and by the Rules for issuing and maintaining the bank guarantees referred to in Article 55 of the Rules, the Bank shall continue to be liable for all the obligations acquired by the Market Participant until that time and until the same Participant replaces this bank guarantee with another appropriate guarantee.

Article 6
(First-demand payment)

As an effect of the provisions of Article 2 above, the Bank shall - irrevocably and without delay - pay any amount, without examining the reasons for the request for payment and without raising any exception and/or objection and in spite of any exception, complaint or objection made by the Market Participant and/or third parties (including other guarantors of the same Participant) in connection therewith, upon the submission of a mere written request by GME, up to a maximum total amount of Euro ...

Article 7
(Modalities of payment by the Bank)

After receiving the request referred to in Article 6 above, to be sent by registered letter with return receipt, preceded by a fax to fax no... or by e-mail with acknowledgement of receipt, the Bank shall pay the amount in Euro indicated in the request for payment within ten days of the date of receipt of the registered letter with

return receipt and with value date on the same day, by means of bank transfer (*bonifico di importo rilevante - BIR*) or equivalent procedures. Where the date of payment falls on a holiday, the deadline shall be postponed to the following first working day.

Article 8
(Derogation from the provisions of article 1957 of the Italian Civil Code)

The Bank hereby explicitly relieves GME of the obligation to act in accordance with the provisions of article 1957 of the Italian Civil Code, without prejudice to the fact that, by way of derogation from such Article, the Bank shall remain bound by its obligations, even if GME has not submitted a request to the Market Participant or has not diligently persisted in such request.

Article 9
(Partial redemption)

This guarantee may also be partially redeemed, but it shall remain valid and effective for the residual amount.

Article 10
(Autonomy of the bank guarantee)

By way of derogation from article 1939 of the Italian Civil Code, this guarantee shall be valid and effective even if the Market Participant's principal obligation towards GME is declared invalid or ineffective or if it is modified in any form, even unilaterally only, by GME.

Article 11
(Waiver of the rights covered by articles 1945, 1947 and 1955 of the Italian Civil Code)

The Bank hereby explicitly and irrevocably waives its rights in accordance with articles 1945, 1947 and 1955 of the Italian Civil Code.

Article 12
(Waiver of claims or actions)

The Bank explicitly waives any defence, exception, right to compensation, claim or action towards GME in connection with the obligations arising herefrom, including but not limited to any defence, exception, compensation, claim or action that the Applicant may in any way institute against GME.

Article 13
(Delegation of the rights covered by this bank guarantee)

The Bank hereby accepts that GME's rights of redemption of this guarantee be exercised by GME or a party specially authorised in writing by GME.

Article 14
(Waiver of the bank guarantee by GME)

GME may at any time and in its sole judgement waive this bank guarantee, by notifying the Bank and the Market Participant thereof and with effect from 24:00 of the working day on which the Bank receives such notification. In this case, the Bank shall be liable for all the obligations acquired by the Market Participant until that time.

Article 15
(Unilateral withdrawal by the Bank)

The Bank may withdraw from this bank guarantee, by notifying GME and the bank in charge of GME's treasury services thereof by registered letter with return receipt. The withdrawal from the bank guarantee shall have effect and the bank guarantee shall cease ten days after receipt of the notification by GME.

Article 16
(Effects of the withdrawal)

GME shall notify the Bank of the amount of obligations, even if they are not yet liquid and/or payable, contracted until the time of effect of the withdrawal, specifying the related reference period.
The bank shall be liable for all obligations, even if they are not yet liquid and/or payable, contracted until the time of effect of the withdrawal, if the Market Participant does not submit to GME a guarantee to cover such obligations.

Article 17
(Notifications)

Without prejudice to the provisions of Article 7 above, all communications or notifications shall be made by registered letter with return receipt or by e-mail with acknowledgment of receipt or by fax to the following addresses:

.... (*surname and name/company name or registered name*), ...(*address*)
e-mail address ... fax number

Communications or notifications shall be deemed to have been received upon their arrival at the receiver's address, if sent by registered letter with return receipt, or upon the date of acknowledgement of receipt, if sent by e-mail, or upon the date of the message of confirmation, if sent by fax.

Article 18

The Court of Rome shall have exclusive jurisdiction over any dispute arising herefrom.
