

MTE - Trayport Authorisation Procedure

Requirements to obtain users' authorisations for Trayport access

- ❑ To obtain a Trayport access authorisation for a so-called “Pass-through” user on the MTE, the applying Participant must already have a customer identification code (firmID), issued by Trayport, and have signed the related Pass-through Agreement with Trayport.

- ❑ To apply for authorisations of one or multiple users, the Participant must:
 - ✓ complete the [Trayport authorisation application](#)

 - ✓ submit the required documents as indicated at the following link: [Trayport Global Vision ME](#)

Requirements to obtain users' authorisations for Trayport access

To access the MTE through the Trayport interface, the user must

- ✓ have already been authorised to access the MTE as designated user (point 4 of the ME participation application)
 - ✓ if you have not been designated, then [click here](#) to request the access authorisation
- ✓ be registered with the MTE platform through his/her own digital certificate
 - ✓ if you are not registered, then [click here](#)

Requirements to obtain users' authorisations for Trayport access

If GME's verifications are successful, the user will receive in his/her e-mail the mapping required to access the MTE through the Trayport interface.
